# **HEALTH BOARD** REVOLUTION

a good, fat salary attached to the office, which will go along with the honor if House bill 66 passes both Houses and

the author of the measure, and that will back it in the Senate for all it is worth. Every member of the Board of then th under the plan drafted by Dr. Russel, will have a salary, and a good one at that. In fact, the reorganization of the Board of Health on this basis, for the salaries of the officers alone, will cost the taxpayers just \$52,000 per year. There are general officers most of whom shall be members of the Board itself, while there is an unspecified num-ber of santary officers and santary no ber of sanitary officers and sanitary po-licemen. The full list of persons to be paid until the reorganization, and it certainly looks easy, until the salaries are footed up, is as follows:

President of the Board of Health, Analytical Chemist, per annum .. 3,500 00 One Assistant Chemist, per an-

Sanitary Policemen, each, per an-

Physician in charge of Insane Settlement, per annum ...... 3,500 00

There is also a provision made for the payment of a \$3,500 salary to the "physician in charge of Maternity Home." As the Maternity Home is a private institution, Dr. Russel has wandered into pas-

tion, Dr. Russel has wandered into pas-tures where it is not necessary for the Board to take a hand in affairs. He has also provided in another part of the bil to have the Maternity Home placed un-der the control of the Board along with the Leper Settlement, Insane Asylum, Bacteriological and Analytical Stations. The Maternity Home not being a Gov-ernment institution, the officers governing that admirable institution will evidently put out the "Hands Off" sign.

The curlous thing about the bill is that although it provides that the President and other members of the Board shall be appointed by the Governor "by and with the consent and advice of the

and with the consent and advice of the Senate," yet the first Board of Health is to be appointed entirely by the Senate. Further along in the bill it is provided that a committee shall be appointed by the Governor consisting of three members of the Senate, who shall be constituted a body to organize the Board of Health, and "designate the first presi-dent thereof," contrary to the first prodent thereof," contrary to the first pro-vision, unless the framers of the meas-ure wished to have a "dead cinch" on the entire matter of appointing the members. Section 40 of the bill, provid-ing for the appointment of the lirst pres-ident and members of the Board of Health by a "committee" of the Senate is contrary to the Organic Act, section 80, which provides "That the Governor shall appoint the Attorney General, Treasurer, Commissioner of Public Lands, Commissioner of Agriculture and Forestry, Superintendent of Public Forestry, Superintendent of Public Works, . . . Board of Prison Inspect-ors, Board of Registration, and any other Boards of a public character that may be created by law,"

The section of the bill which is at variance with this provision is as follows: Section 40. Immediately upon the pas-sage and approval of this Act there shall be appointed by the Governor, with the advice and consent of the Legislature, a committee, consisting of three members of the Senate, who shall, for the purpose of organizing and putting into operation the Health Department and service according to the provisions of this Act, take temporary charge of the Health Department and service, and receive from the heretofore existing Board of Health of the Territory, all the proper-ty, paraphernalia, books, records, medi-cines, instruments and all other matters and things connected with the department of sa'd Board of Health, or under its control. Such committee sha'l proceed to organize the department of the Board of Health, designate the first President thereof, and the sanitary offi-cers and members of the Board or a Commissioner pro tem, and shall exercise all the duties, and possess all the powers of such Board, until the same shall be duly organized in the manner herein provided. They shall have power to abrogate and formulate rules and regulations for the conduct thereof, such Board shall deem necessary. All tastruments, materials and other property of the Territory, relating or pertaining to those branches of science, and now in the possession or under the control of the Board of Health heretofore existing, or any member thereof, or any others.

lished for the use and benefit of such Dr. Russel has an idea that the Board of Health should be made up of medicos entirely and that laymen have no particular right in the fellowship. The provisions for the president of the Board are nicely defined, but a doctor with the qualifications set forth is not easy to get hold of, and physicians cannot be imported for membership on the Board, as they must be citizens of the Territory. A kahuna has no shew on the Board, as the is not a graduate of a recognized university or medical college, nor does the native kahuna possess the right to affix the B.A. or B.S. or both. Section 2 calls for a president of the Board of Health who shall be the sanitary officer of the "County of Oahu" and shall reside in Honolulu. He must be a duly licensed Doctor of Medicine, graduate of a college of medicine, and having pursuing medical shulles, after a full college of weeks and when he resider medical shulles, after a full college of weeks and when he resider medical shulles, after a full college dweath and dur up his abparagus and the form has not been a howling success. Then he shall have recommended in the first hard sort been a howling success. The hold the market with Early with him. For instance, when he start ed in to flood the market with Early with him. other person or persons, shall be deliver-

ed to the Board of Health hereby esta

sued not less than four years' course of regular medical similes, after a full college education. He shall also be regulared to furnish satisfactory proofs that he is a thorough similalist in assistary science, public health or state medicine. Who is to judge of these qualifications is not stated. "He shall be duly appointed by the Gavernor, by and with the advice and consult of the Britis, as copy in the first buttance, when, as provided is section in as shown to shall be dusting of the British familiary as it by the first buttance, as the buttance of the British familiary as it by he birded he has pavel the way for the away archimient.

Then there is to be a view promitent relief and permus and secretary, a suitable person for case. | themist's, 50 cents.

utive officer, who shall have the powers and authority of a deputy sheriff in all matters perialning to public health. The activity of the Board shall be scientific. practical and executive. Its duties shall be to co-operate with and assist the United States Marine Flospital service in charge of quarantine of the Terr tory, in preventing the importation of infectious and contagious diseases, both of human belows and animals into the Ternuman beings and animals, into the Ter ritery, and should any germs of such discuss he so imported, the Board is to Dr. Nicholas Russel, ex-President of the Senate and now only an ordinary legislator, wants to be president of the reorganized Board of Health. There is a good, fat salary attached to the office, moval of such causes, and as far as it may be possible to lim. or destroy the disease: to make and recommend to the the Governor attaches his signature thereto.

House bill 66 was introduced by Representative F. W. Beckley on March 31, but it is generally conceded that Russel drugs, the adulteration of foods and liquors, sanitary buildings, the reorgani-zation of the Leper Settlement on principles of self-government and all other rules in various branches of pub-lic hygiene which the said Board may see fit to regulate and control in accordance with modern knowledge of public sanitation; which rules and regulations when so made and recommended during an interim between sessions of the Legislature, shall have the effect of law un-til the next legislative session; to exercise proper sanitary control over labor-ers' quarters, mills and manufacturing establishments, coasting steamers and vessels which may be beyond the control of the United State Marine Hospital Ser-vice, railroads, public and private buildings, public and private schools and hos-

pitals, prisons, water supplies and mar-kets; to control and regulate the examiuntion of lepers and vaccination. "The Board of Health as a whole, and its individual members, officers and agents, shall have the right to enter and inspect between the hours of sunrise and sunset, any premises, public or private, and any opposition to such right shall constitute a misdemeanor and be punished by a fine of not less than \$5 or more than \$100, or by imprisonment not less than five or more than 100 days. Members of the Board are to be paid mileage in addition to other compensation here-in provided, at the rate of ten cents per mile for each mile actually traveled-over in the discharge of his duties; provided, however, that this shall not apply within the c'ty or town limits in which the offi-

The same query arises in regard to the sanitary officers for the various counties, as to who shall be competent to pass upon their qualifications for the offices, as it is provided they shall be duly li-censed Doctors of Medicine, and possess all the other qualifications required of the president, except that they shall not be required to be thorough specialists. be required to be thorough specialists.
The first complement of these officers are to be appointed by the Governor. The Territorial bacteriologist, besides pos-sessing all the other qualifications required by the sanitary officers, shall furnish satisfactory evidence that he is a specialist in bacteriology, and the same applies to the Territorial analyist in his special department. The veterinary shall have had three years' actual experience in his work. The sanitary officers are not to be allowed to practice medicine during their tenure of office, but may give medical assistance to individuals without pay. Surely this is a spiced of concession. Section 22 reads:

Conditions unfavorably affecting, or II-able to affect the public health, created artificially by individuals, corporations, city, county or Territorial authorities shall be removed at the expense of the party or parties causing the existence thereof. Conditions injurious to public

Section 26. The executive committee of the Board of Health shall be composed of all the members thereof having their permanent residences in Honolulu, and shall represent the Board and carry out all the duties, routine and administrative business thereof between the meetings of said Board; but all the transactions of such executive committee shall be subject to the approval of the Board in the next quarterly meeting. The president of the Board of Health shall be exofficio chairman of such executive committee, and shall, in case of a division, which was division, the hosband of Kanea, for ten years. Therefore, judgment is given for picintiff and his costs, and officio chairman of such executive com-mittee, and shall, in case of a division, have two votes. The secretary of the Floard of Health shall be a secretary of such executive committee, and perform all the duties incident thereto.

Probably the following section is aimed at the Maternity Home: Section 24. No Ving-in, private, county or municipal hospital, or sanitarium, or similar institution intended for the treatment of the sick or injured, whether charitable or for pay, shall be per-mitted by the Board of Health, unless such institution shall satisfy all the re-

passes through Fred Snow's asparagus appellant. bed, so the people up that way say the road is going up to the snow line. To a certain extent only the statement is misleading; the place has been something of a frost for Snow, mainly because agriculture at that particular point has not been a howling succtleman had dur up his asparagus and planted kohl rabi. After that he planted sugar cane, and the last time I was up to the "snow line" it looked as though they would have to put something on the top of the stalks to keep It from grawing. Clas is quite right for case, even though one meets with obstacles in grawing addingly vege-Schlez-Hawali Herald

...

The legal battle in this case, over a dozen attorneys vociferously representing the various parties to the suit and defense covered by the "et al." in the title, was noteworthy.

The plaintiff's claims were upheld by W. A. Whiting and W. J. Robinson. and the numerous parties to the defenwere represented by Davis & Gea., Kinney, Ballou & McClanahan and H. A. Bigelow, Robertson & Wilder, W. L. Stanley and Henry Holmes.

The argument was finished at a late hour in the afternoon and the case sub-mitted to the court, who took the matter under advisement, stating that decision would be given, either orally or in writing, on Saturday, April 13, at 10

### COURT NOTES.

W. H. Pain, by his attorney, Paul Neumann, yesterday filed an answer to the complaint of plaintiff in the suit of Wineer's Steamship Company vs. W. H. Pain, denying generally and specifically each and every a legation therein set forth, and praying for dis-

Henry Smith has, with the consent of the court, withdrawn as attorney in the matter of the estate of Kimokeo Kawaha.

Anwaha.

The piaintiff in the case of the Hawaiian Tramways Co., Ltd., vs. T. S. Southwick, J. A. McCandless and F. J. Whineim, has filed a joinder in the demurrer of the defendants, stating that the declaration thereof, and the matters contained in defendant's de-marrer, are sufficient in law for the planniff to sustain its action against the defendants, and that the said plaintiff is ready to verify and prove the same as the court shall direct and award.

### MAUI MATTER.

Summons was yesterday issued in a case to come up at the June term of the Maui (second) Circuit, in which the plaintin is a well known school tach-er, and the defendant a prominent person, who holds the scales of jusperson, who holds the scales of justice. Defendant is charged with criminal conversation, whereby plaintiff alleges the injury to his feelings, etc., and asks to be awarded damages therefor to the tune of \$5,000. The firm of Achi & Johnson are retained by plaintiff, and the parties are all prominent Hawaiians. nent Hawaiians. The plaintiffs in the case of Wah

The plaintiffs in the case of Wah Pang et als. vs. J. H. Raymond et als., have filed notice that they join in the denurrer pleaded by the defendants. Service of such notice was yesterday admitted by E. P. Dole, attorney for the defendants. Paul Neumann represents the plaintiffs in the case,

DECISION IN THE MAUI CASE. A copy of a decision rendered by the judge of the Second Circuit Court in the ejectment proceeding of Kalawe vs. See Hop, has been sent to the clerk of the First Circuit Court, from Walof the First luku, Maul.

This is a suit first instituted in the party or parties causing the existence thereof. Conditions injurious to public health, due to natural causes, independent of human activity, neglect, ignorance or bad will, may be removed within the means afforded by general or special appropriations of the Board of Health, at the expense of the Territory. Where both human activity and natural causes are involved, the expense of removal rhall be justly divided between the Territory and the respective individuals or corporation.

Section 26. The executive committee of the Board of Health shall be composed. for ten years. Therefore, judgment is given for plaintiff and his costs, and for damages fixed at \$10.

William O. Smith yesterday filed a motion to the effect that the accounts of receipts and disbursements of himself as guardian of Joseph and David Espinda, minors, theretofore filed, by stricken from the files of the First Circuit Court, on the ground that such court has no jurisdiction to examine said accounts, because said guardianship proceedings were brought and are now pending in the Second Judicial Circuit Court, such court being the only court having jurisdiction in the matter. The court ordered the accounts stricken from the files, according multir. The court ordered the ac-courts stricken from the files, accord-ing to motion.

The accounts of

The accounts of William O. Smith, as guardian of the Itali minors, were yesterday approved by the court, and said guardians was discharged, as to the guardianship of W. A. Hall upon fling his receipt, said minor, W. A. Hall, having attained his majority.

# STARTING FOR THESE ISLANDS

### Vanguard of a Porto Rican Arn y Eight Thousand Strong,

SAN JUAN, P. R., March 5.-The surplus labor population of forto Rico is being gradually, but permanently lesseled by his algration. Duting the past few months over 1,800 men, women and children have left for Hawait. and if the Hawaiian Sugar Planters' Association does not cancel its order with the local agents, and if too mucn opposition is not raised here, about \$,000 more will be sent to the far-away

shoo more will be said to said the of numerous scare stories in the local Spanish papers. These stories are written and circulated by a certain element, which, for one reason or another, is opposed to emigration. By means of newspapers and handbills, which have been distributed in the districts from which the emigrants are being recruited the ignorant would-be emigrants are led to believe that they are being sold into slavery, and that their masters will subject them to all manner of torture and cruelty on the sugar plantations of Hawaii.

TROUBLE WHEN SHIP SAILED.

TROUBLE WHEN SHIP SAILED. TROUBLE WHEN SHIP SAILED.

The last lot of Hawaii-bound emigraints sailed from Ponce March 3. The ship intended to sail March 2, but it was held up by the authorities on complaints from parents that their children were being taken away without their consent. Dozens of women also complained that their husbands were deserting them. The ship was detained over night, and several of those intending to sail were taken off by the intending to sail were taken off by the An inspectable action

on the 2d of the control of the Spanish to the Cubic control of the Spanish American Iron Company was an English freighter, and not licensed to carry passengers. The boat was held up by the customs authorities and the by the customs authorities, and the man in charge of the expedition dis-missed the emigrants, saying that he missed the emigrants, saying that he was an irresponsible employee and not allowed to pay the four days' pay which the men claimed was due them while waiting to sail. He had entered into no contract with the people beyond a verbal promise to give them work at \$1 a day. The disappointed men naturally felt that they had a grievance, and a riot was imminent, when they were quieted by the police. Seventy-five of them sailed the next morning on the Californian for New Orleans, en route to Hawaii.

The emigration of her labor class may be considered a blessing for Porto Rioo. The island is exceedingly overpopulated, and there is no work to be offered to the vast army of unemployed. Those who are left behind have more opportunity to better themselves, and those who emigrate, especially these who go to Hawaii, will begiven permanent employment. They find the climate and style of labor Use.

given permanent employment. The find the elimate and style of labor to same as that to which they are accustomed here, and they are given free rent, fuel, medical attendance and schooling for their children, and besides are well paid, conditions which they could never hope in Porto Rico.
